

(4) *All sewer rentals or charges imposed by the council against properties connected with a community sewage collection or disposal system under the provisions of this section shall constitute liens against the properties and may be collected in the same manner as other sewer charges.*

(5) *All moneys received from the sewer charges shall be deposited as a special reserve fund, and shall be used only for the payment of the cost of operating and maintaining the sewage collection or disposal system and the replacement thereof if necessary and economically desirable. If at any time after the acquisition or enlargement of the sewage system, a regular sewer system is made available by the borough for connection with the properties using the community sewage collection or disposal system, the owners of such properties shall be subject to the other provisions of this act relating to sewers, and all money at that time in the reserve fund which was received from charges for the use of that particular sewage collection or disposal system, and which is over and above the amount expended for the operation and maintenance of that particular sewage collection or disposal system, shall be used towards the payment of any sewer assessments charged against such properties under other sections of this act.*
