

No. 2014-127

A SUPPLEMENT

HB 2244

To the act of December 8, 1982 (P.L.848, No.235), entitled "An act providing for the adoption of capital projects related to the repair, rehabilitation or replacement of highway bridges to be financed from current revenue or by the incurring of debt and capital projects related to highway and safety improvement projects to be financed from current revenue of the Motor License Fund," itemizing additional State and local bridge projects.

The General Assembly of the Commonwealth of Pennsylvania hereby enacts as follows:

Section 1. Short title.

This act shall be known and may be cited as the Highway-Railroad and Highway Bridge Capital Budget Supplemental Act for 2014-2015.

Section 2. Definitions.

The following words and phrases when used in this act shall have the meanings given to them in this section unless the context clearly indicates otherwise:

"Account." The Highway Bridge Improvement Restricted Account within the Motor License Fund.

"Capital project." A capital project as defined in section 302 of the act of February 9, 1999 (P.L.1, No.1), known as the Capital Facilities Debt Enabling Act, and shall include a county or municipal bridge rehabilitation, replacement or improvement project as set forth in this act.

"Department." The Department of Transportation of the Commonwealth.

"Secretary." The Secretary of Transportation of the Commonwealth.

Section 3. Total authorization for bridge projects.

(a) Total projects.—The total authorization for the costs of the projects itemized pursuant to this act and to be financed from current revenue or by the incurring of debt shall be \$6,515,565,000.

(b) State projects.—The authorization for capital projects in the category of highway bridge projects and forestry and State park bridge projects to be constructed by the department or the Department of Conservation and Natural Resources, or their successors or assigns, and to be financed by the incurring of debt or from current revenue, itemized in this act under the category of State bridges, shall be \$4,929,005,000.

(c) Non-State projects.—The authorization for non-State highway bridge projects to be constructed by municipalities and to be financed in part with grants not exceeding 80% of the non-Federal share of the costs made to the local government municipalities by the department from current revenues itemized in this act under the category of local bridges shall be \$1,586,560,000.

Section 4. Itemization of bridge projects.

The individual capital projects in the category of highway projects to be constructed by the department, its successors or assigns, and to be financed

from current revenue or by the incurring of debt are hereby itemized, together with their estimated financial costs, in the following sections.

Section 5. Adams County.

Section 72. Miscellaneous.

(1) (Reserved).

Section 73. Limitation on expenditure of funds.

The following shall apply:

(1) Any moneys derived from the incurring of debt shall be used solely for effecting the rehabilitation, replacement or removal of bridges located on State highways. All other bridge rehabilitation, replacement or removal shall be financed from current revenue.

(2) Notwithstanding any law to the contrary, the projects itemized in the act of December 8, 1982 (P.L.848, No.235), known as the Highway-

Railroad and Highway Bridge Capital Budget Act for 1982-1983, may be financed from current revenue.

Section 74. Debt authorization.

The Governor, Auditor General and State Treasurer are hereby authorized and directed to borrow from time to time, in addition to any authorization heretofore or hereafter enacted, on the credit of the Commonwealth, subject to the limitations provided in the current capital budget, money not exceeding in the aggregate the sum of \$4,929,005,000 as may be found necessary to carry out the acquisition and construction of the State projects specifically itemized in this act.

Section 75. Issue of bonds.

The indebtedness authorized in this act shall be incurred from time to time and shall be evidenced by one or more series of general obligation bonds of the Commonwealth in such aggregate principal amount for each series as the Governor, Auditor General and State Treasurer shall determine, but the latest stated maturity date shall not exceed 30 years from the date of the bond first issued for each series.

Section 76. Estimated useful life of projects.

The General Assembly states the estimated useful life of the projects itemized in this act is 30 years.

Section 77. Appropriation.

The net proceeds of the sale of the obligations authorized in this act are hereby appropriated from the Capital Facilities Fund to the department in the maximum amount of \$4,929,005,000 to be used by it exclusively to defray the financial costs of the State projects specifically itemized in this act. After reserving or paying the expenses of the sale of the obligation, the State Treasurer shall pay out to the department the moneys as required and certified by it to be legally due and payable.

Section 78. Federal funds.

In addition to those funds appropriated in section 77, all moneys received from the Federal Government for the public improvement projects specifically itemized in this act are also hereby appropriated for those projects.

Section 79. Allocation of funds.

(a) General rule.—Whenever the department or the Department of Conservation and Natural Resources determines that the full estimated financial costs of the projects itemized in this act are not necessary for the proper design, acquisition or construction of such projects, the excess funds no longer required may be allocated by the department or the Department of Conservation and Natural Resources to increase the estimated costs of any one or more of the projects specifically itemized in a capital budget.

(b) Reimbursement of municipal expenditures.—Moneys raised or expended by municipalities after the effective date of this act, in anticipation of receipt of funds authorized for projects itemized by this act, may be reimbursable to those municipalities.

Section 80. Policy on jobs and materials.

(a) Jobs.—It is the declared policy of the Commonwealth that the construction projects authorized in this act be used, to the greatest extent possible, to provide for the creation of jobs and the rehiring of the

unemployed in this Commonwealth. In order to reach this goal, firms with Commonwealth-based facilities shall be actively solicited to make bids on contracts to furnish products and materials, including, but not limited to, steel and steel products, to be used in these projects.

(b) Materials.—Every contract document entered into to undertake a project contained in this act shall provide that any steel or other products to be used or supplied in the performance of this contract be required to be manufactured by plants in the United States unless the secretary determines, on a contract-by-contract basis, that certain required products are not produced in the United States in sufficient quantities to meet the requirements of the contract. Such a determination and the reasons therefor shall be published in the Pennsylvania Bulletin. Decisions made under this subsection shall not be inconsistent with the general provisions of the act of March 3, 1978 (P.L.6, No.3), known as the Steel Products Procurement Act.

(c) Minorities and women.—It is also the declared policy of the Commonwealth to require and encourage substantial participation by minorities and women in the construction projects authorized by this act.

Section 81. Payment of capital debt service.

The repayment of any debt incurred pursuant to this act shall be made from the account and such repayment shall have first claim on the revenues of the account.

Section 82. Authorization and debt cumulation.

The additional authorization and debt allowance provided for in this act shall be added to the total authorizations and debt incurred pursuant to the act of December 8, 1982 (P.L.848, No.235), known as the Highway-Railroad and Highway Bridge Capital Budget Act for 1982-1983, as amended and supplemented.

Section 83. Editorial changes.

In editing and preparing this act for printing following the final enactment, the Legislative Reference Bureau shall insert or revise letters or numbers for projects where the letters or numbers are missing or require revision. The bureau shall also revise the total monetary amounts for the total authorization, debt authorization, appropriations and departmental totals as necessary to agree with the total monetary amounts of the projects.

Section 84. Effective date.

This act shall take effect immediately.

APPROVED—The 10th day of July, A.D. 2014
