

No. 220

AN ACT

SB 1213

Amending the act of March 31, 1949 (P. L. 372), entitled "An act to promote the welfare of the people of the Commonwealth; creating The General State Authority as a body corporate and politic with power to construct, improve, equip, furnish, and operate projects, and to lease the same, and to fix fees, rentals, and charges for the use thereof; authorizing and regulating the issuance of bonds for said Authority, and providing for the payment of such bonds, and the rights of the holders thereof; and to enter into agreements with the Government of the United States or any Federal agency; and authorizing the Department of Property and Supplies to grant, assign, convey, or lease to the Authority lands of the Commonwealth and interests therein, and to acquire lands therefor; granting the right of eminent domain; empowering The General State Authority to sell and convey projects and property to the Commonwealth; and providing that no debt of the Commonwealth shall be incurred in the exercise of any of the powers granted by this act," empowering the Authority to construct and acquire projects for certain State-related universities; providing for the disposition of unused borrowing capacity which may become available through the operation of the Higher Education Facilities Act of 1963 or other Federal grants; harmonizing the language of certain existing amendments; allocating unused funds; providing for the interpretation of certain amendments to the act; further defining the powers and procedures of the board; regulating the leasing of projects constructed for State-aided institutions; amending the eminent domain powers and procedures of the Authority; specifically itemizing projects for capital budget purposes.

The General Assembly of the Commonwealth of Pennsylvania hereby enacts as follows:

Section 1. The first paragraph and clause (k) of section 4, act of March 31, 1949 (P. L. 372), known as "The General State Authority Act of one thousand nine hundred forty-nine," the first paragraph of section 4 amended August 14, 1963 (P. L. 1032) and clause (k) amended January 5, 1952 (P. L. 1829) are amended to read:

Section 4. Purposes and Powers; General.—The Authority is created for the purpose of constructing, improving, equipping, furnishing, maintaining, acquiring and operating sewers, sewer systems, and sewage treatment works for State institutions of every kind and character (heretofore or hereafter constructed), public buildings for the use of the Commonwealth, an official residence in the City of Harrisburg which shall thereafter be used as the official residence of the Governor of the Commonwealth, municipal exhibition halls, State arsenals, armories, and military reserves, State airports and landing fields, State institutions of every kind and character (heretofore or hereafter constructed), additions and improvements to land grant colleges, the University of Pittsburgh

and Temple University, State colleges and Indiana University of Pennsylvania, universities and medical colleges, manual training schools, agricultural and industrial schools receiving State aid, school buildings and the furnishings and equipment thereof for the use of the public schools, resident treatment and research centers for victims of addictive diseases operating under the jurisdiction and control of the Department of Public Welfare, State highways, and bridges, toll bridges, tunnels, and traffic circles on State highways, swimming pools, reservoirs and lakes, marinas, marine terminals, port improvements, low head dams, improvements to river embankments, desilting dams, impounding basins, flood control projects, and the purchase of lands for rehabilitation purposes in connection with State institutions and for use of State colleges (any and all the foregoing being herein called "projects"): Provided, however, That the purpose and intent of this act being to benefit the people of the Commonwealth by, among other things, increasing their commerce and prosperity, and not to unnecessarily burden or interfere with existing business by the establishment of competitive enterprises, none of the powers granted hereby (other than for the construction, improvement and maintenance of bridges) shall be exercised in the construction, improvement, maintenance, extension or operation of any project or projects which, in whole or in part, shall duplicate or compete with existing enterprises serving substantially the same purposes. Whenever any bill authorizing the Authority to undertake specific projects becomes law, the Authority shall not undertake any project which at any time was included in such bill but which was not included in the bill as finally passed. The Authority is hereby granted and shall have and may exercise all powers necessary or convenient for the carrying out of the aforesaid purposes, including, but without limiting the generality of the foregoing, the following rights and powers:

* * *

(k) Without limitation of the foregoing, to borrow money and accept grants from, and to enter into contracts, leases or other transactions with, any Federal agency: Provided, That any unused borrowing capacity which may become available due to the operation of the Higher Education Facilities Act of 1963 (Public Law 88-204) or by reason of any Federal grant from any other source for any project at any State college, Indiana University of Pennsylvania, the Pennsylvania State University, the University of Pittsburgh or Temple University shall be used only for academic buildings or

other similar facilities as approved by the Superintendent of Public Instruction for the university or college originally receiving the Federal grant.

* * *

Section 2. The act is amended by adding after section 4, a new section to read:

Section 4.1. Construction of Amendments.—Whenever two (2) or more amendments to clause (i) of section 4 of this act which raise the capacity of the Authority to borrow money, make and issue negotiable notes, bonds, and other evidences of indebtedness or obligations are enacted at the same or different sessions of the Legislature, one (1) amendment overlooking or making no reference to the other or others, the amendments shall be construed together and the aggregate borrowing capacity shall be the sum of the increases contemplated by all such amendments added to the aggregate borrowing capacity as it existed prior to the adoption of any such amendment unless a contrary intent is specifically stated in such amendments.

Section 3. Section 7 of the act is amended to read:

Section 7. Governing Body.—The powers of the Authority shall be exercised by a governing body consisting of the members of the Authority acting as a board. Within ninety (90) days after this act shall become effective, the board shall meet and organize by electing from their number a president, a treasurer and a secretary. At the first regular meeting in each year thereafter, they shall elect from their number a president, a treasurer and a secretary.

Seven (7) members shall constitute a quorum of the board for the purpose of organizing the Authority and conducting the business thereof and for all other purposes, and all action shall only be taken by vote of a majority of the members of the Authority, unless in any case the by-laws shall require a larger number.

The board shall have full authority to manage the properties and business of the Authority, and to prescribe, amend, and repeal by-laws, rules, and regulations governing the manner in which the business of the Authority may be conducted, and the powers granted to it may be exercised and embodied and contract regulations which if adopted and promulgated a reasonable time prior to bidding and shall become a part of all contracts to which they apply whether

set forth in such contracts or not if incorporated therein by reference. The board shall fix and determine the number of officers, agents, and employes of the Authority and their respective compensation and duties, and may delegate to one or more of their number as a committee or otherwise the exercise of such powers of the board in the interim between meetings of the board as the board may deem appropriate, or to one or more of said officers, agents, or employes such powers and duties as it may deem proper.

The board may take any action by the written consent of at least eleven (11) members of the board after notice to all and the failure of any member to request that the action be taken only at a meeting, provided that public announcement is made of the proposed action prior to requesting such written consent.

The itemization of capital projects for public improvement purposes to be financed by the incurring of debt and the statement of estimated financial costs shall not prevent the board of the authority from decreasing or increasing the amount to be expended on any one project as may be desirable subject to the limitations imposed by law upon the total amount of bonds that may be issued.

Section 4. Section 9.2 of the act, amended July 18, 1961 (P. L. 790), is amended to read:

Section 9.2. Contracts to Lease and Leases by Department of Public Instruction or School Districts from Authority.—The Department of Public Instruction or any school district shall have power and authority, with approval of the Governor, to enter into contracts with the Authority to lease as lessee from the Authority any school building or addition or improvements to universities or medical colleges or manual training schools, agricultural and industrial schools receiving State aid and the furnishings and equipment thereof, constructed or improved by the Authority, for a term, with respect to each, not exceeding thirty (30) years, at such rental or rentals as may be determined by the Authority, and upon the completion of said school building or additions or improvements and the furnishing and equipment thereof, or when said projects are used or occupied the Department of Public Instruction or school district shall have power and authority, with the approval of the Governor, to lease as lessee said school building or additions or improvements and the furnishings and equipment thereof, for a term, with respect to each, not exceeding thirty (30) years, at such rental or rentals as may be determined by the Authority.

When any such project is leased by the Authority to the Commonwealth of Pennsylvania, the Department of Public Instruction shall have power and authority, with the approval of the Governor, to sublease such project to the university or medical college or manual training school, agricultural and industrial school receiving State aid or school district for which said project has been undertaken, upon such terms and conditions as shall be agreed to: Provided, however, That whenever any project for which funds shall be allocated for any State-aided university, medical college or manual training school, agricultural or industrial school is leased by the Authority to the Commonwealth of Pennsylvania, the Department of Public Instruction shall sublease such project to the university or medical college or manual training school, agricultural or industrial school receiving State-aid for which said project has been undertaken for the same aggregate rentals as the Authority's lease of said project to the department, upon terms and conditions as shall be agreed to. An agreement to sublease shall be executed by the Department of Public Instruction prior to the commencement of design and/or construction by the Authority. The provisions of this section shall not apply to any project on which any substantial engineering or design planning has been completed prior to August 14, 1963, or upon which actual construction of previously approved projects had been started on or before August 14, 1965 as provided in the acts of August 14, 1963 (P. L. 1032) and January 21, 1966 (P. L. 1446).

Section 5. The first paragraph of section 11 of the act, amended May 6, 1957 (P. L. 108), is amended to read:

Section 11. Competition in Award of Contracts.—If any project or any portion thereof or any improvement thereof shall be constructed, equipped or furnished pursuant to a contract and the estimated cost thereof exceeds [five hundred dollars (\$500)] fifteen hundred dollars (\$1500), such contract shall be awarded to the lowest responsible bidder after advertisement for bids. The Authority may make rules and regulations for the submission of bids, the issuance of binding letters of intent to contract, the award of

contracts, and the construction, equipping, furnishing or improvement of any project or portion thereof: Provided, That such rules and regulations shall not conflict with the requirements of competitive bidding. No contract shall be entered into for construction, equipping, furnishing or improvement of any project, or portion thereof, or for the purchase of materials, unless the contractor shall give an undertaking with a sufficient surety or sureties approved by the Authority, and in an amount fixed by the Authority, for the faithful performance of the contract; and such contract shall be accompanied by an additional bond for the protection of those who furnish labor and material or rental equipment for such amount and subject to the same terms and conditions as recommended by The Administrative Code of one thousand nine hundred twenty-nine, as amended, on contracts entered into by the Department of Property and Supplies for the erection of buildings. All construction contracts shall provide, among other things, that the person or corporation entering into such contract with the Authority will pay for all materials furnished, rental equipment used and services rendered for the performance of the contract, and that any person or corporation furnishing such materials rental equipment or rendering such services may maintain an action to recover for the same against the obligor in the undertaking as though such person or corporation was named therein, provided the action is brought within one (1) year after the time the cause of action accrued. The additional bond shall be conditioned upon the prompt payment of actual equipment rentals and shall not be conditioned upon or guarantee payment of equipment rentals, all or any part of which, directly or indirectly, apply on the purchase price of such equipment under the terms of a bailment lease or conditional sales contract or by any other arrangement by which title to the equipment will be transferred to the contractor and the rentals form any part of the consideration. Nothing in this section shall be construed to limit the power of the Authority to construct any project, or portion thereof, or any addition, betterment, or extension thereto, directly by the officers, agents, and employes of the Authority, or by agreement with the Federal or State governments, or any agency or department, or either thereof.

Section 6. Section 12 of the act is amended to read:

Section 12. Acquisition of Lands.—The Authority shall have the power to acquire, by purchase or eminent domain proceedings, either the fee or such right, title, interest, or easement in such lands, as the Authority may deem necessary for any of the purposes mentioned in this act: Provided, however, That no lands, interest in lands or property used as a burial ground [or place of public

worship] shall be appropriated by virtue of power of eminent domain hereby conferred.

Whenever the Authority desires to acquire land to carry on its purposes, and a price for such lands or the interest therein desired cannot be agreed upon with the owner or owners thereof, or where such owner or owners cannot be found, in all such cases, the Authority is authorized to acquire the land or the interest therein desired by eminent domain proceedings in accordance with the act of June 22, 1964 (P. L. 84), known as the "Eminent Domain Code,"

[Thereupon, the Authority may apply to the court of common pleas of the county wherein such lands are located for the appointment of viewers. The application for the appointment of viewers shall recite—(1) the failure of the parties to agree to a price for such lands or interest therein desired, or the owner or owners thereof cannot be found, (2) a statement of the Authority under which and the purpose for which said lands or interest therein are taken, (3) a statement of the estate or interest in said lands taken, (4) a description and plan of the lands taken, and (5) a statement of the names and addresses, if known, of the owners of the land.

Upon the court's order appointing viewers being made and duly entered in the office of the prothonotary, as well as recorded in the office of the recorder of deeds in the county wherein said land is situated, the title to the said land in fee simple absolute, or such less estate, right, title, interest, or easement therein, as is specified in said applications, shall vest in the Authority, and said lands shall thereupon be deemed to be condemned and taken for the use of the Authority, and the Authority shall forthwith have the right to enter on and use same, subject to the right to just compensation to the owners thereof, as ascertained and awarded in the condemnation proceedings and established by judgment therein, and the said judgment shall include, as part of the just compensation awarded, interest at the rate of six per centum (6%) per annum on the amount finally awarded as the value of the land in fee simple absolute, or such less estate, right, title, interest, or easement therein, as of the date of the filing of the order made for the appointment of viewers to the date of final judgment thereon.

The court shall have power to make such orders in respect of encumbrances, liens, rents, taxes, assessments, insurance and other charges, if any, as shall be just and equitable.

The court shall appoint three (3) viewers and shall approve a time, not less than twenty (20) nor more than thirty (30) days after the presentation of the petition for the appointment, when the viewers shall meet upon the lands and view the same and all improvements in connection therewith.

The viewers shall give at least ten (10) days notice of their first

meeting to the President of the Authority and to the owners of such land, if known. If the owners of such lands are unknown, notice shall be given in at least two (2) newspapers of general circulation, in such manner as the court may direct. The viewers having been sworn or affirmed, faithfully, justly and impartially to decide and a true report to make concerning all matters to be submitted to them in relation to which they are authorized to inquire, and having viewed the lands and premises, shall hear the parties and their witnesses and shall estimate and determine the value of the property so taken. Where the owner of such lands and premises is unknown, the viewers shall estimate and determine the value of the land and improvements upon the testimony of the witnesses for the Authority and any witnesses called by the viewers.

When the report is filed, notice thereof shall immediately be given to the President of the Authority and to the owners of the land, where known, which notice shall state that, unless exceptions be filed thereto within thirty (30) days after the filing of the report, the same will be confirmed absolutely. Where any owners of such lands are unknown, notice shall be given in at least two (2) newspapers of general circulation, in such manner as the court shall direct.

Within thirty (30) days after the filing of any report, the Authority or the owners of such lands may file exceptions to the same and the court shall confirm, modify, or change such report, or refer the same back to the same or new viewers.

When the report is filed, the prothonotary shall mark it "confirmed nisi." In case no exceptions are filed thereto within the time herein specified, the court shall make a decree that the report is confirmed absolutely, which decree shall be entered by the prothonotary.

Within thirty (30) days after any report of viewers is filed under this act, the Authority or the owners of such land may appeal to the court of common pleas and demand a trial by jury. Within six (6) months after a confirmation absolute on exceptions, or within six (6) months after a verdict and final judgment on appeal for a jury trial, the President of the Authority or the owners of such land may appeal to the Supreme or to the Superior Court, as in other cases.

When the amount payable to the owner of such land has been finally determined, the same shall be paid by the Authority from its funds. All costs in connection with any such proceedings shall be paid by the Authority in like manner.

In all cases where the owners of lands are unknown and the report of viewers has been finally confirmed, the Authority shall be liable for all damages awarded therein. If at any time after the final confirmation of the report of viewers, any person appears and proves title to said lands, such persons shall be entitled to, and receive from the Authority, the sum so awarded by the viewers. Any such claimant of the land may petition the court of common pleas of the county wherein the land is located, giving a brief outline of the facts upon which the claim is based. Thereupon, the court shall direct an issue

to be framed, wherein the claimant shall appear as plaintiff and The General State Authority as defendant. Such issue shall be tried according to the rules of procedure and evidence governing trials in ejectment, with a right of appeal by either party to the proper appellate court. If the final judgment on such issue is in favor of the plaintiff, the sum awarded by the report, as finally confirmed, shall be paid by the Authority to said claimant. The party to the action against whom the judgment is entered shall be liable for the costs, as provided by law in other civil actions.]

Section 7. For capital budget purposes the following public improvement projects to be financed by the issuing of debt and to be constructed by The General State Authority, its successors or assigns, and which are in addition to those projects itemized in the "Capital Budget Act for the 1968-1969 Fiscal Year" are hereby specifically itemized, together with their respective estimated financial costs, as follows:
