SESSION OF 1990 Act 1990-218 1449

(Base Project Allocation - \$1,750,000) (Land Allocation - \$91,000) (Design and Contingencies - \$175,000)

Section 4. Debt authorization.

The Governor, Auditor General and State Treasurer are hereby authorized and directed to borrow, from time to time, in addition to any authorization heretofore or hereafter enacted, on the credit of the Commonwealth, subject to the limitations provided in the current capital budget, money not exceeding in the aggregate the sum of \$2,885,416,000 as may be found necessary to carry out the acquisition and construction of the highway projects, specifically itemized in section 3 of this capital budget.

Section 5. Issue of bonds.

The indebtedness herein authorized shall be incurred from time to time and shall be evidenced by one or more series of general obligation bonds of the Commonwealth in such aggregate principal amount for each series as the Governor, Auditor General and State Treasurer shall determine, but the latest stated maturity date shall not exceed 30 years from the date of the bond first issued for each such series.

Section 6. Estimated useful life of projects.

The General Assembly states the estimated useful life of the projects heretofore itemized is 30 years.

Section 7. Appropriation.

The net proceeds of the sale of the obligations herein authorized are hereby appropriated from the Capital Facilities Fund to the Pennsylvania Department of Transportation in the maximum amount of \$2,885,416,000 to be used by it exclusively to defray the financial costs of the projects specifically itemized in section 3 of this capital budget. After reserving or paying the expenses of the sale of the obligations, the State Treasurer shall pay out to the Pennsylvania Department of Transportation the moneys as required and certified by it to be legally due and payable.

Section 8. Federal funds.

In addition to those funds appropriated in section 7, all moneys received from the Federal Government for the construction of the public improvement projects specifically itemized herein are also hereby appropriated for those projects.

Section 9. Allocation of funds.

Whenever as determined by the Pennsylvania Department of Transportation that the full estimated financial costs of the projects itemized in section 3 are not necessary for the proper design, acquisition or construction of such projects, the excess funds no longer required may be allocated by the Pennsylvania Department of Transportation to increase the estimated costs of any one or more of the projects specifically itemized in a capital budget.

Section 10. Effective date.
This act shall take effect immediately.

APPROVED—The 19th day of December, A. D. 1990.
